

510 A

Ventus makes marking easy

Ventus Print & Apply System is designed and developed by Meckelborg Oy in Finland. Due to the capability of real-time labelling the information as well as the product can easily be changed. Different attachment alternatives enable Ventus to label any product regardless of the industry your company is operating. Its modular structure gives an opportunity to customize your company a unique labelling solution with minimal costs. In addition, its small and compact size makes it easy to install the system in different applications. Ventus fully combines the cost-effective price with reliability, endurance, flexibility and user-friendliness. Ventus even speaks your own language as well as standard English.

- Easy to adapt
- Reliable
- User-friendly
- 15 memory locations for product settings
- Settings can be easily modified
- Ventus speaks your own language as well as standard English
- Label printer can be chosen to meet your needs
- Option to network and WLAN
- Metal frame

Ventus 510 A

Ventus 510 A is a blow applicator for real-time printing and applying. It is ideal for high-speed production lines where labelling must be executed extremely fast. In addition, blow application is suitable for products rugged in shape as well as such products that cannot or are not elected to be touched. The maximum labelling speed is 100 labels / minute (label size 25 x 30 mm). Ventus 510 A is at its best when you print large numbers of the same label size.

Technical specifications
