

810 A

Ventus makes marking easy

Ventus Print & Apply System is designed and developed by Meckelborg Oy in Finland. Due to the capability of real-time labelling the information as well as the product can easily be changed. Different attachment alternatives enable Ventus to label any product regardless of the industry your company is operating. Its modular structure gives an opportunity to customize your company a unique labelling solution with minimal costs. In addition, its small and compact size makes it easy to install the system in different applications. Ventus fully combines the cost-effective price with reliability, endurance, flexibility and user-friendliness. Ventus even speaks your own language as well as standard English.

- Easy to adapt
- Reliable
- User-friendly
- 15 memory locations for product settings
- Settings can be easily modified
- Ventus speaks your own language as well as standard English
- Label printer can be chosen to meet your needs
- Option to network and WLAN
- Metal frame

ventus 810 A

Ventus 810 A

Ventus 810 A is designed especially for pallet labelling. A turning application head enables labelling to two sides of the pallet. The basis for the design lies behind the standard issued for pallet labelling. However, the position of the application head can also be adjusted to apply the labels either horizontally or vertically. Ventus 810 A requires only one square meter space to operate. The labelling speed of the system is six pallets per minute, when applying the labels to both sides of the pallet.

Technical specifications

Label size:

A5 (148 x 210 mm)

Speed:

6 pallets / minute

(labels to both sides of the pallet)

15 pallets / minute

(label to one side of the pallet)

Compressed air:

~ 6 bars

Dimensions:

Height 800 mm

Width 1200 mm

Depth 400 mm

Labelling accuracy:

+/- 5 mm
