Ventus 610 A+

Ventus 610 A+ is a piston applicator that applies the label with a pneumatic cylinder. This feature makes Ventus 610 A+ ideal for applications where the label size or attachment distance varies. The application head is designed in such a way that it enables labelling also hollow applications. The label size can vary between a small-sized label (25 x 30 mm) and a larger pallet label. Moreover, there is an auxiliary blow in the application head. It ensures that the label is accurately attached in all products – also then when the surface of the product is rugged or otherwise demanding. Ventus 610 A+ is extremely user-friendly. The application head has unique adjustment rods, and in order to change the label size, you only need to switch the position of the rod. Quick and easy!

Technical specifications
